CLASSIC MOULDED DOORS

CONTEMPORARY DOORS

TECHNICAL APPENDICES

Don't compromise, go composite

We don't believe in compromising on quality. We've brought together materials to give you the very best in strength, easy maintenance, security, and weather resistance. Oh – and great looks as well.

Behind the Door-Stop name, you'll find the latest technology and design in doors. When you're indoors you'll enjoy loads of style, strength and security.

With a host of customisable options to choose from across colour palette, glazing, ironmongery and security, these elegant doors provide the strength and beauty to make a bold statement, whatever your property style.

We don't make anything else

Door-Stop have been a pioneer in the composite door industry since 2008, setting standards in quality and innovation. Unlike some other manufacturers we were the first company solely dedicated to crafting composite doors – we've never made anything else.

This laser focus allowed us to revolutionise the industry, introducing innovations like reglazeable cassettes, colour-matched weather bars and providing Energy Rating certificates before they were mandatory.

Today as part of the Masonite Group, our legacy of customer satisfaction endures, carrying forward our extensive experience and unwavering commitment to excellence.

Mid Square, White Internal Colour, Clear Glass

FEATURES

Colour Matched Weather Bars

We believe the entirety of the door should match your chosen colour. Therefore we only offer colour matched weather bars, designed specifically to match your new entrance door.

Unique Reglazeable Cassettes

Reglazeable Cassettes, our patented reglazeable cassettes mean the glass can be swapped out or replaced without the need to replace the entire door.

PVC Edgebanded To Complete Your Door

Every sight-line of your door is considered. On the hinge edge of all doors, we apply a genuine door/stop and then secure the hinges for a perfect finish. Genuine door/stop floors carry an official stamp on the hinge edge near the bottom of the door.

Internal Colour Choices

We understand the importance of matching the interior side of your new door to your colour scheme. That's why we offer doors with a separate interior colour to the exterior.

INTRODUCING

New Colour Options

Our new colours have been inspired by the great outdoors and help you coordinate your exterior doors with the latest trends in interior design. From calming tones associated with the British countryside through to more vibrant sea blues, embrace a range of landscapes to incorporate the natural world into the comfort of your home.

The two new greys - Pebble Grey and Agate Grey - match particularly well with a neutral palette to create a welcoming entrance to any home. For those with a bolder design preference, a front door in Purple Violet, Fern Green or Turquoise Blue can be used to create a focal point both inside and outside.

*Our classic furniture suite is also available in a high position.

Locking Options

We know a secure door is important to our customers, and that's why our range of locks, cylinders and handles are tested, certificated and accredited to industry standards. The combination of these locks and a reliably strong structural frame make our doors unrivalled in terms of the peace of mind they offer.

GU Slam Lock

Yale TS007 3 Star Handle/ Cylinder Combination Option

Yale's superior cylinder and platinum handle combination is accredited with the coveted TS007 or BS1 Kitemark – one of the most secure available for composite doors and locks. Subjected to extensive tests, it can resist anything the most determined burglar can throw at it.

Yale Lockmaster

Developed and tested to deliver superior security and ease of use, British made and featuring a combination of hooks and anti-lift bolts for proven and reassuring protection.

Enhanced Security

We go beyond mere functionality; we prioritise your safety and peace of mind. Choose from our enhanced security options and experience a new standard of protection for your home.

Secure Guarantee (on Ultion Locks)

In the unlikely event that you're burgled and the intruder gains entry by snapping the Ultion cylinder you'll get a £2000 compensation and a new door replaced or repaired. Activate your guarantee together for free at www.door-stop-doors.co.uk.

Ultion Solid Secure Diamond Option

The Ultion cylinder has passed all major British standards test for security without the need for cylinder protectors or extra secure door handles. These tests include the highest TS007 standard (3 star) and the extended Solid Secure Diamond test, which is more rigorous and designed by the Master Locksmith Association.

Yale Conexis

The Yale Conexis Smart Door Lock puts you fully in control, giving you the freedom to secure your home without the need for a key. Configure, control and unlock your Smart Door Lock from your smartphone via our secure Bluetooth app.

Police Recognised - Secured by Design

If anyone knows about security, it's the Police. Our Secured by Design option meets the national standard for safer homes. It's secured by many insurance companies. So as well as enjoying an added sense of safety, you could get a discount on your home insurance cover, too.

Energy Ratings

Every Door-Stop door is issued with a bespoke energy rating certificate – based on expert data from the Build Research Establishment and accredited by the British Fenestration Ratings Council (BFRC).

Eco Friendly & Weather Proof

As a responsible manufacturer, we spend a lot of time ensuring that we fulfil our obligations to creating a more sustainable future.

GRP – The Longest Product Lifespan*

Door Type	Expected Life	Maintenance
Softwood Door	25 Years	Paint, 5 Years
Hardwood Door	35 Years	Paint, 5 Years
Steel Composite Door	30 Years	Wipe Clean
PVC Composite Door	25 Years	Wipe Clean
GRP Composite Door	35 Years	Wipe Clean
PVC Panel Door	20 Years	Wipe Clean

Green doors – now available in every colour

From day one we chose to use a calcium zinc-based compound in the extrusion of the door frame (which we make in different lengths to avoid waste) because it's much kinder to the planet than lead-based additives.

The door's inner rigid foam system is completely, utterly, one hundred percent CFC free.

Reducing our carbon footprint

We've taken big steps to reduce our own carbon footprint too. Door-Stop doors are made right here in the UK, unlike the products of other door companies. And we carefully plan all our delivery routes to cut down the amount of fuel we use.

Other manufacturers look at our doors and go green with envy – we're just greener.

Rainfall Tested

The average rainfall in the UK is between 700mm a year in East Anglia and 3,000mm a year in the Scottish Highlands.**

WATER TIGHTNESS Tested in accordance with BS EN 1027	AIR PERMEABILITY Tested in accordance with BS EN 1026	WIND RESISTANCE Tested in accordance with BS EN 12211
